

Sunset

Fact

There is only one way
Before you stand up
The only one unknown
Don't be blinded by it
Things can be better than now

Now look up at me
No one ever cared about you
Act like you mean it
The enemies lay behind the door
When you are doing great

I turned on the TV when I could,
But no one never thinks of me
A man is nothing unless he does what he really wants
Don't worry they won't pay attention to you as yourself
Let them see the lies build

There is only one way
Before you stand up
The only one unknown
Don't be blinded by it
Things can be better than now

To link all the pieces of memories
The same mistakes are committed
Escape from the space between the lies
To reach where we stand now

There is only one way
Before you stand up
The only one unknown
Don't be blinded by it
Things can be better than now
