

# King of the Flies

Fad Gadget

Right from the start I got it wrong  
I did the things I shouldn't have done  
I'm between the devil and the deep blue sea  
Now someone else looks after me  
I stole every minute from time's locked doors  
Add sold used souls in bargain stores  
Without a conscience I was king of the flies  
I laid in gutters and told you lies

Yellow light bulb  
Light's go out at ten o'clock  
Bolted steel door  
This time they'll throw the key away  
Cold grey floorstone  
It feels like home now  
Not another sleepless night  
How do the flies get in and out

I changed the rules to suit myself  
I swapped my heart for something else  
Stuck between the devil and an overdose  
I played hands tied with the Holy Ghost  
Well I made some money on my way down  
I dragged my friends into the ground  
Get behind me Satan if you want your share  
This cell is more than I can bear

Yellow light bulb  
Light's go out at ten o'clock  
Bolted steel door  
This time they'll throw the key away  
Cold grey floorstone  
It feels like home now  
Not another sleepless night  
How do the flies get in and out
