

Always and Forever

Fade

Thinking of you
It's sure been a long time
Way beyond the sea
In the city of angels

Spring is everywhere
When all comes to life
Remember the days we were the same

Always and forever I want you to know
That I've never stopped forgetting the first sunrise we met
The day that fate brought us together
Something in us started to breathe

Cause I could breathe, I could breathe only you

Fire in the sky
Searching for the reason
The sweet and pure days of summer
Remind me of you

Always and forever I want you to know
That I've never stopped forgetting the first sunrise we met
The day that fate brought us together
Something in us started to breathe

Cause I could breathe, I could breathe only you

Remember those days

Always and forever I want you to know
That I've never stopped forgetting the last
sunset we shared
But waiting for you at my limits
Left us both alone in the dark

But I could breathe, I could breathe only you
But I could breathe, I could breathe only you
