

Ever Free

Fade

Whoa - Until the day I find my way out
Whoa - I live to dream cause that's all I've got
Whoa - This never-ending cycle in life
Forever Free
I have heard it through all my life
That everything happens for a reason
You fight so hard to just keep it inside
But the heart aches ever more tonight
Look in the mirror and
See deep down in my eyes
Wanting to find myself cause I cannot seem to
Find what my heart wants most
Does this mean anything?
I cannot see my place
In this world - In this world
Whoa - Until the day I find my way out
Whoa - I live to dream cause that's all I've got
Whoa - This never-ending cycle in life
I feel alive
You start to look for all the reasons
Telling yourself the same words of comfort
Another day will come I'm so sure
But the heart aches ever more tonight
I think I'm almost there
The point where I don't care
Accepting everything so I can finally
Move on, release myself
Tomorrow I'll be new
I know I'll find my place
In this world - In this world
Whoa - Until the day I find my way out
Whoa - I live to dream cause that's all I've got
Whoa - This never-ending cycle in life
Forever Free
The time goes by with or without you
Not even in the direction
You wanna go but you try to hold on
Not to go out of control
Whoa - Until the day I find my way out
Whoa - I live to dream cause that's all I've got
Whoa - This never-ending cycle in life
Forever Free
Whoa - Until the day I find my way out
Whoa - I live to dream cause that's all I've got
Whoa - This never-ending cycle in life
I feel so alive
Cause I feel so alive
