

## Face

## Fade

Look in the mirror  
There lies another in you  
Laughing and smiling  
"What's wrong with you ?"  
Look there in the back  
There lies another in you  
Holding out his hands  
Come with me to the other side

Different times  
Different life  
He comes out for you  
Searching for the weakness for the pain and the tears

Nothing wrong will come out true  
Heart is the only price to pay  
If you have the will to say i will show you the way

Different times  
Different life  
He comes out for you  
Searching for the weakness for the pain and the tears  
Wishing will never do  
Hold it inside you  
Keep everything true  
Search for the shadow in the light

Look inside the heart shaped box  
Find the toy you're looking for

Different times  
Different life  
He comes out for you  
Searching for the weakness for the pain and the tear  
Wishing will never do  
Hold it inside you  
Keep everything true  
Search for the shadow in the light

He comes out for you  
Hold it inside you  
He comes out for you  
Hold it inside you

Different times  
Different life  
He comes out for you  
Searching for the weakness for the pain and the tears
