

## Moment of Life

Fade

Deep down in my memories  
reminisce the days of joy  
Holding back the heart brings that  
Torture me in vain

Feeling everything's the same  
Keeps me from the yet to see  
Working for the essence of the life  
Believe a past

Makes us who we are  
comes create new beginnings  
I breathe and close my eyes  
For one last time

With the universe  
That moves the earth  
My mind in peace

So far away  
I can find my way  
Just to glorify  
Simple things in life  
So far away  
I will find my way  
This is not a choice  
In this moment of life

Walking on these dreams tonight  
Feeling not to everything  
Painless all calms me down  
It's eating me alive

In this world of promises  
Filled with everything you need  
Illusions of the trance that keeps us from  
ourselves the past

Makes us who we are  
helps create new beginnings  
I breathe and close my eyes  
For one last time

With the universe  
That moves the earth  
My mind in peace

So far away  
I can find my way  
Just to glorify  
Simple things in live  
So far away  
I will find my way  
This is not a choice  
In this moment of life

The shadow of this hate

Makes everything so strange inside  
Never mean to see  
But i know this is right  
I've had enough of this  
So sick inside i cannot stand anymore  
This is for last chance

So far away  
I can find my way  
all to glorify  
Simple things in live  
So far away

I will find my way  
This is not a choice  
In this moment of life

In this moment of life  
In this moment of life
