

Trace your body with my eyes and I can't deny
This sensation that I feel boiling up inside
As you're dancing just for me wearing only skin
I forget the world around gliding deep within sin

See your body come alive at my fingertips
Make me lose my sense of time with your dirty lips
Every time I see you move I just gotta play
Gotta play with my naughty H
With my naughty H

All your writhing in the sheets makes me wanna scream
Push your body to the max as you scream for me
Let your hips collide with mine in the heavy grind
In the streams of dirty thoughts flowing through my mind
- right

See your body come alive at my fingertips
Make me lose my sense of time with your dirty lips
Every time I see you move I just gotta play
Play with my naughty H
With my naughty H
