

## Push Me On

Fair Warning

Troubled times - ages dark and violent  
Lost my love and lost my life  
On my way - crossed the seas of silence  
Learned to fight - learned to survive

The darkness led me way astray - I cried  
I've learned to be a castaway - it comes as no surprise

Push me on - dry my eyes  
Guide my heart through the night  
Underneath your silent wings of love  
Drive me all the way, I know -  
For my love, it will grow - I'm alive

Moving on - to a new horizon  
And I'm bound to make it through

The sorrow, it can't hold me down, I'll fight  
I know your light will lead me on - I know, I will  
survive

Push me on - dry my eyes  
Guide my heart through the night  
Underneath your silent wings of love.  
Drive me all the way, I know -  
For my love, it will grow - I'm alive, I'm alive

Push me on - dry my eyes  
Guide my heart through the night  
Underneath your silent wings of love.  
Drive me all the way, I know -  
For my love, it will grow - I'm alive, I'm alive
