

Find My Love

Fairground Attraction

Oh, well, I turn the dial on the radio
Trying to find an all-night station
Want to hear a song I know,
Song about my situation

Oh, on nights like these
(I) feel like falling to my knees
Fell like calling "heaven, please"

Find my love - Find my love
Find my love - Find my love

Somewhere out there,
There must be a boy for this girl
Could be anywhere, could be next door
Or the other side of the world!
Call up my radio, give'em my number,
Tell them to put it out on the air
There must be someone, there must be someone like me
Sitting lonely as a boat out there

Oh, on nights like these
(I) feel like falling to my knees
Fell like calling "heaven, please"
