## Jewel in the Crown

## **Fairport Convention**

We are a proud land, we stand for freedom we've got the franchise, on how to lead them we've got the history, and books to prove it give us the mountain, and we will move it

we rule the waves, and, the seven seas, we bring the mighty, to thier knees we offer hope, and inspiration a fine example, to lesser nations

we are Britania, jewel in the crown

we brought a system, to the masses
divide a nation, into classes
it's in our breeding, and on our faces,
at least we're all born, knowing our places

we stay within our, social borders we only take what, our class affords us it doesn't matter, that it's not even this is the nature, of the demon

we are Britania, jewel in the crown

we are Britania
we crowned an empire
we came and conqured
we tore thier borders down
we need no conscience
god is on our side
we are Britania
jewel in the crown

we are your friendly, liberators we'll free you countries, from your dictators for a small slice, of your oil wells we'll send our boys in, with thier bombshells

we are a refuge, for the needy always caring, never greedy whatever gesture, could be finer we've given Hong Kong, back to China

we are Britania, jewel in the crown

jewel in the crown jewel in the crown jewel in the crown
