

## White Dress

Fairport Convention

Feel how the wind blows, December despair  
Bring me a ribbon to tie up my hair  
I'll be your bride, go where you go  
All of my life, you'll be my beau  
Kiss me and I might  
Put on the white dress  
If you'll take me dancing tonight  
The night's in your face, sky's in your eyes  
The day's in my arms when you're by my side  
Whenever you're weary, I'll sing you a song  
Whenever you're lonely, I'll show you, you're wrong  
Kiss me and I might  
Put on the white dress  
If you'll take me dancing tonight  
Come from the window, let's climb the stairs  
All of my sorrows are none of your cares  
While life is in us, let's love all we can  
I'll be your woman if you'll be my man  
Kiss me and I might  
Put on the white dress  
If you'll take me dancing tonight
