

# Back to Love

Faith Evans

You remind me of  
Of a love I once knew before  
I was so open for love  
So in love with no experience  
But I like this feeling  
You're really bringing back the memories  
Of someone I once knew  
I feel you bring it all back to me

Bring me back to love  
Cause real love is what I'm thinking of  
It would be so nice if we could run away  
Run away

It was hard to see  
All the wrong my last love did to me  
I was just a fool in love  
That's not how it was supposed to be  
But I like this feeling  
And I don't want you to remind me of  
Of someone I once knew  
Just keep on bringing me back to love

Bring me back to love  
Cause real love is what I'm thinking of  
It would be so nice if we could run away  
Run away

You make me feel so good  
You treat me like I'm special baby  
So take me back to love  
Cause that is where I wanna be  
Back to love

It's so good it's plain to see  
The way that you keep loving me  
Bringing back the memories  
Of a love that used to be

It's so good it's plain to see  
The way that you keep loving me  
Bringing back the memories  
Of a love that used to be

Bring me back to love  
Cause real love is what I'm thinking of  
It would be so nice if we could run away  
Run away

Bring me back to love  
Cause real love is what I'm thinking of  
It would be so nice if we could run away  
Run away

Bring me back to love  
Cause real love is what I'm thinking of  
It would be so nice if we could run away

Run away

Bring me back to love

Cause real love is what I'm thinking of

It would be so nice if we could run away

Run away
