

# Can't Stay Away

Faith Evans

(feat. Keyshia Cole)

Ooo eeee

I can't stay away

If the sun doesn't shine

In the morning times

And it feels like what we're doing

Ain't working

What are we gonna do

About me and you

'Cause I wanna try and make this thing perfect

Ohh yeah

If you try to find a way

To go a separate way

Feelings like these just don't go away

Boy these feeling just don't go away

'Cause it's the way you love me

'Cause it's the way you kiss me

It's the way you touch me

I can't stay away

'Cause it's the way you hold me

The way you bother talk to me

It's just the way you love me

I can't stay away

Soft boy soft boy

Love me softly

Make me I can stay

Baby come on

Just can stay away

We've been trying to figure out

If all we have it's worth it

But I believe we... our time to make it

To make it still burn

To make it all right

So what if there are some of you people don't make it through

We can do this we don't have to...

We can try to find a way

To go separate away

But feelings like these just don't go away

'Cause it's the way you love me

'Cause it's the way you kiss me

It's the way you touch me

I can't stay away

'Cause it's the way you hold me

The way you... talk to me

It's just the way you love me

I can't stay away

Baby baby baby  
Can't you see?  
Somehow your love has hypnotized me
