

Lucky Day

Faith Evans

Today...is a lucky day
We can...get away
Just tell the dj to play (and play)
I just want to hear you play my favorite song
I just to hear you play my favorite

Dj's got me feeling kinda sexy
Got my body moving on the floor
Everytime i hear that Funky music
I just let the rhythm take control
Come on...come on

I like the jam your playing for me (don't stop don't stop that jam)
Don't stop the jam just play it for me
(it's that jam yeah, it's that jam yeah)

When you put the needle on the record
Ain't nobody standing on the wall
Everybody's stepping at this party
Doing what we're doing
Everybody just get down and have a ball

Let the music play till the break of day yeah
Got to feel the groove got to make a move
As we dance all night till the morning light

It's that jam

Come on get up and dance [x8]
