

Make Love

Faith Evans

Won't you come over
'Cause I wanna make love
Baby just tell me if I'm doing too much
Tell me how you like it, baby
'Cause I'd do it, just wanna make love
You can just tell me if I'm doing too much
I wanna make love, make love, make love
I just wanna make love, make love, make love

Oh, listen pretty baby, let me tell you what I love
About the way that you make me feel, yeah, oh
Every day and every night you,
Break it down, make it right, I don't sleep
Come on and touch me, babe

Won't you come over
'Cause I wanna make love
Baby just tell me if I'm doing too much
Tell me how you like it, baby
'Cause I'd do it, just wanna make love
You can just tell me if I'm doing too much
I wanna make love, make love, make love
I just wanna make love, make love, make love

Now that you hear me baby
Come and lay me down and taste
My sweet love, I can't get enough
Every day you're my life
You gotta love me right,
Don't play with my heart, I need you babe
Oh yeah!
I really make your heart beat, baby
I wanna give it all to you
Anything you want from me my baby
There's nothing that I won't do

(X2)

Won't you come over
'Cause I wanna make love
Baby just tell me if I'm doing too much
Tell me how you like it, baby
'Cause I'd do it, just wanna make love
You can just tell me if I'm doing too much
I wanna make love, make love, make love
I just wanna make love, make love, make love

Over again, over again
Over again and again and again
Over again, over again
Over again, over again
Then keep do it again
Do it again, do it again, do it again
Letting me do it over again, over again
