

Right Here

Faith Evans

There's this feeling that you give to me
That no one else can give
Baby it feels like I'm dreaming
You take me away to another place
Somewhere that only we can find

My love will be right here
My love will be right here
You don't have to worry baby
Cause I ain't going nowhere
Love will be right here
Gonna be right here

You do it so good
Can't nobody do it better
Baby boo you got my love and I'll be here forever
You do it so good, can't nobody do it better
Baby boo you got my love and I'll be here forever
Forever and ever and ever

You know my love is gonna be right here
You don't have to worry baby
Cause I'll always be around
My love will be right here
My love will be baby
You know, yes it will
