

## Right Here

Faith Evans

There's this feeling that you give to me  
That no one else can give  
Baby it feels like I'm dreaming  
You take me away to another place  
Somewhere that only we can find

My love will be right here  
My love will be right here  
You don't have to worry baby  
Cause I ain't going nowhere  
Love will be right here  
Gonna be right here

You do it so good  
Can't nobody do it better  
Baby boo you got my love and I'll be here forever  
You do it so good, can't nobody do it better  
Baby boo you got my love and I'll be here forever  
Forever and ever and ever

You know my love is gonna be right here  
You don't have to worry baby  
Cause I'll always be around  
My love will be right here  
My love will be baby  
You know, yes it will
