

## Sunny Days

Faith Evans

You turn the rain into sunny days  
You take the clouds away  
Baby you're the one  
I feel like heaven's a step away  
He sent an angel my way  
Baby you're the one

I remember when  
I used to be afraid to love again  
But now I realize  
That you're the one who brings the sun  
You turn

Something real I can feel  
I was searching for  
I didn't wanna hurt no more  
Then you came, made a change  
Since you came and made it right  
I can love you all my days

Can you tell me where would I be?  
What would I do if I hadn't found you?  
Though I've been in love before  
You can be compared to none  
Cuz you really bring the sun

I always try to hide the way that I feel  
But I can't lie  
That you're the one for me  
You bring me ecstasy

Sunshine in my life  
No more stormy days  
Sunshine in my life  
No more stormy days  
Sunshine in my life  
No more stormy days
