

# Tru Love

Faith Evans

Six Years five months  
That's how long we've been havein' this thing  
We've got every moment hasn't been perfect  
But still when it's perfect it feels  
Like we're the only two people who have somethin' real  
Now 3 years two weeks  
That's how long we've been raisin' our family  
And I wouldn't go tradin'  
The love we got  
So don't go changin'  
I love you just the way you are

It's true love  
When you say you need me like I need you  
And you can't be without me  
Like I can't be without you  
It's true love  
When we spend time talking on the phone  
Cause when we're not around each other we don't want to be alone  
It's true love, love, love, love  
Don't you know it's good to be in love, love, love, love  
Just believe me truthfully cause  
Love is never ever makin you cry  
Before I tell you a lie  
I'll give my life  
Cause that true love

Now when the love is right  
Somehow you just know  
Because you hold it tight  
And you don't want to let it go  
And it's so deep inside of you that  
You just can't take it cause it fills up your heart  
And you just, you can't replace it (Oh no)  
Somebody's makin love  
Non-stop tonight  
And they can't make enough  
I know what it feels like  
Grab your lover by the hand  
Say that you understand  
How love really works  
So good that it hurts

Cause I don't need nobody but you in my life oh baby  
Those of you that understand what I'm sayin'  
Sing along with me say  
Cause I don't need nobody but  
You in my life oh baby  
Those of you that understand what I'm sayin'  
Sing along with me

[Chorus]
