

# It Matters To Me

Faith Hill

1. Baby tell me where'd you ever learn  
To fight without sayin' a word  
And waltz back into my life  
Like it's all gonna to be alright  
Don't you know how much it hurts.

R: When we don't talk  
When we don't touch  
When it doesn't feel like we're even in love  
It matters to me  
And I don't know what to say  
Don't know what to do  
Don't know if it really even matters to you  
How can I make you see  
It matters to me.

2. Baby I still don't understand  
The distance between a woman and a man  
So tell me how far it is  
And how you can love like this  
Cause I'm not sure I can

R: When we don't talk...

\*: Oh and I don't know what to say  
Don't know what to do  
Don't know if it really even matters to you  
How can I make you see  
Oh it matters to me.  
Oh it matters to me.  
It matters to me.
