## **Just Around the Eyes**

**Faith Hill** 

Just around the eyes
That's where you remind me
Of someone I left behind me
I'm sorry if I stare

But you must have stirred a memory And it caught me by surprise But it was only for a moment And just around the eyes

Something in your touch
Took me back a long way
And made me say the wrong name
I wish I could explain

But if I had to tell you Where a small resemblance lies It's something in your touch And just around the eyes

I'm over him completely
I rarely think about him at all
So when I look at you
Tell me, what should I do
With the little bit of him that I saw

Only when you smiled You could have bowled me over A memory out of nowhere That came and went so fast

Don't tell me I still love him
That has to be a lie
It's just something in your touch
And only when you smile

And only for a moment Just around the eyes
