Faith No More

Has it been so long?
Do you think we know?
Do you think we care?
Die...for the here and now
Do you remember why?
Do you remember how?
Face out
Stick your chest out
Stomach in
Thats right
Do you really know
Where the harems go
In the desert snow? Hail,
An oasis dream doesn't really seem
To mean a thing when you're out cold
So, hands up
Put your guards up
Feet down
Up down
Forward march
Left right
Cold cold
I feel cold
