

## The World Is Yours

Faith No More

Keep your distance  
You're in the race (?)  
Caress me  
In your eye I've got better things to do This will hurt  
someone White walls, windows  
Charity(?)  
Defenders(?)  
Comfort me and bring me something sharp This will hurt  
someone - someone else  
This will hurt someone else Calm down, Think Carefully  
Seen it all before  
Mind your own fucking business  
Seen it all before  
What I would give for your eyes  
Seen it all before  
You'd never blink again  
Seen it all before Faces on top of more faces  
This bullet in your chest, the world is yours  
Each word, you suck it through a straw  
It's so predictable, it's policy This will hurt someone -  
someone else
