## **Underwater Love**

**Faith No More** 

Looking down into the water It's hard to make out your face If our love is drowning, then why Do I feel so out of place? Bubbling up to the surface Are you getting a breath of fresh air? Forever longing to make you mine But I can't escape your sta re... Liquid seeps into your lungs But your eyes look so serene It's wonderful how the surface ripples But you're perfect, and I cannot breathe Forever longing to make you mine But I can't escape your stare... Hold me closer, keep me near My underw ater love Hold me closer, keep me near I'll never get enough Touch me from below I'll never let you go But I can't escape
