## Faithless

Love is you (2x)

My TV barks at me, from the corner  
Life on the street is like a sauna, it's too hot.  
Put bars around what you've got,  
And the whole city lucky that we ain't been shot.  
We got full blown decent into argument  
Here we go.  
Times to overthrow the parliament, so  
In these struggled times  
I wanna know, do you  
Make a stand or just follow the flow  
Even though, you know y' leaders are fullup of ego  
Do we go where the others go and lay low  
Only moving on someone elses say so  
I say no!  
What's in my heart is unexplainable  
I ain't a fool  
And happiness is attainable  
And even on the days when rain will fall  
I still plan to love and I always will  
It's a calling from when I rise in the morning  
This is a love we were born in  
Ya tap it and it just keep coming and coming and coming

Love is you, love is us, love is ...

Hmm. It's a powerful thing that can make a man sing  
And bring people together with strength of feeling  
Now, be connected from the floor to ceiling  
Ecuador to Beijing become all the same thing  
Like a movement, love too strong to deny  
Born to fly but we stay grounded and I don't know why  
We have a powerful tool, no need to cry  
With it you separate the truth from a lie  
The point I wanna make,  
Is you could never escape from your fate,  
The mistake is to take without giving.  
So, break the tradition.  
Make a decision, cause no matter how hard you try  
You're still in prison,  
If ya born with wings and you never fly  
Listen, you don't stop,  
Especially when the going gets rough.  
That's when it's real  
And I love that stuff,

Love is you, love is me, love is us, love is free  
Zip up your front all ya want  
But there's a heart in every seed

Love is you, love is me, love is us, love is free  
Zip up your front all ya want  
But there's a heart in every seed

And I love that stuff (2x)
