Feelin Good

Faithless

I want the view from the top of the hill Give me the view from the top of the hill

When I think of you And your good life And your sorrow too How much i'm missing you No matter where i go Or where I come to stay This is waking up I want this feeling Doors wide open

And now i leave it all Bags of trouble And a messy mind Oh I hope I find Where your load is light Where your heart's at ease This is waking up And feeling good, feeling good

Hey, i'm making my mistakes Cause I'm no great shakes at being perfect I just take my breaks and work it Bring it to the surface Like a scuba diver Never nervous Cause now i'm older and wiser An' I've a bold feelin This old skin is peeln Revealing a new layer I'm no soothsayer But I feel it's time to leave To polish my heart with the other sleeve

I want the view from the top of the hill Give me the view from the top of the hill I want the view from the top of the hill Give me the view from the top of the hill

And feeling good, feeling good
