

## Last This Day

Faithless

Lines to the skin  
That have seen  
Neither sun nor sin

Tubes to the mouth  
Cannot laugh or sigh  
Or even cry

A drop in the ocean  
A second and all time  
One stop in the endless sky

But you mean  
The whole world to me  
You're an island of light  
So please last this day  
Stay one more day  
Please last this day  
Stay one more day

Stay one more  
Stay one more  
Stay one more day

Just one more  
Just one more  
Just one more day

All this madness around us  
You are knowing  
And so still

You were made in love  
Grew in hope  
Were born in pain

You have them running round  
Trying to make you breath again

One tiny link  
In and endless chain

But you mean  
The whole world to me  
You're an island of light  
So please last this day  
Stay one more day  
Please last this day  
Stay one more day  
Please last this day  
Stay one more day
