

## Sun to Me

## Faithless

So in future lifetimes  
It's a certainty  
That we'll again  
Fit together perfectly

So in in future lifetimes  
It's a certainty  
That we'll again  
Fit together perfectly

You're the sun to me  
You're the sun to me  
You're the sun to me  
You're the sun to me  
You're the sun to me  
You're the sun to me

I stumbled into you  
Accidentally  
And yet  
Feels as though you were  
Sent to me...  
That we were meant to be  
Together and grow with  
Each other  
Through the centuries

If my body was your mirror  
You'd be able to see  
Exactly  
What it is about you  
That I'm addicted to  
Helplessly you distract me  
Like a mountain view of  
Rivers crashing into the sea  
Strangely  
You all seem familiar to me  
Would so, love tie us  
Together through eternity  
So in future lifetimes  
It's a certainty  
We will again  
Fit together perfectly

You're the sun to me  
You're the sun to me

So in future lifetimes  
It's a certainty  
We will again  
Fit together perfectly

You're the sun to me  
You're the sun to me

If my body was your mirror  
You'd be able to see

Exactly  
What it is about you  
That makes me shiver  
You give me a soul fever  
And I achieve  
A new level of grace

So in future lifetimes  
It's a certainty  
We will again  
Fit together perfectly  
Perfectly  
Perfectly  
Perfectly  
Perfectly  
Perfectly

You're the sun to me  
You're the sun to me

We do it so fervently  
We do it so fervently  
With your urgency  
We do it so fervently

You're the sun to me  
You're the sun to me  
You're the sun to me  
You're the sun to me

You're the sun to me  
You're the sun to me  
You're the sun to me  
You're the sun to me
