

# Feel Your Fire

Faktion

Right now there's an angel here  
She's in my arms but somehow I can barely feel  
She's taking my heart away  
And after this I know I'll never be the same

And I have reached the stars tonight

Where did you go my child?  
'Cause I'm wanting to feel your love  
and feel your fire  
Where did you go my beautiful child?  
'Cause I am wanting to feel your love  
and feel your fire

I wake with open eyes  
my heart it burns, something just don't seem right  
'cause I'm left here all alone  
she's flown away and never to return at all

So I fall back to Earth tonight

Where did you go my child?  
'Cause I'm wanting to feel your love  
and feel your fire  
Where did you go my beautiful child?  
'Cause I am wanting to feel your love  
and feel your fire

So take my heart  
Turn it into ashes  
I don't need it

Now I have to dream  
Someday you will come back to me  
And I will make you say  
Together we can be anything

Where did you go my child?  
'Cause I'm wanting to feel your love  
and feel your fire  
Where did you go my beautiful child?  
'Cause I am wanting to feel your love  
and feel your fire

Feel your fire  
Feel your fire
