

Six O'Clock

Faktion

Six o'clock and I'll be ready
Lesson learned, my hands are steady
One more day, and I'll be home
Living with regret of what I've done
How could I waste what we have on her
We can't go out that way

I go to sleep by your side almost every night
I crave the feeling of your skin,
As it presses against mine
Now that I'm so far from home
I know you're sleeping alone
You're hoping that i remember
What you mean to me

I've always known where I was heading
Forgetting the fact that
You're not ready
It's six o'clock, I'm all alone
Missing all I've left at home
How could I waste what we have on her
We can't go out that way
I'm lost without you
I remember what you mean to me
