

# As Long As Winds Will Blow

Falkenbach

... As long as winds will blow  
My pride will be  
And a star will shine  
From far away...  
...As long as winds will blow  
My pride will be  
And hate remains  
Inside my heart  
At night a star did shine upon  
What once was build on my ancestors' land  
When once I was young  
Willing to learn  
From the old and the wise  
...As long as winds will blow  
My pride will be  
And hate remains  
Inside my heart  
Evening fell unto this land  
That once was build by my ancestors' hand  
When I was young  
Willing to fight  
...for as long as the winds will blow...
