As Long As Winds Will Blow

Falkenbach

... As long as winds will blow My pride will be And a star will shine From far away... ... As long as winds will blow My pride will be And hate remains Inside my heart At night a star did shine upon What once was build on my ancestors' land When once I was young Willing to learn From the old and the wise ... As long as winds will blow My pride will be And hate remains Inside my heart Evening fell unto this land That once was build by my ancestors' hand When I was young Willing to fight ...for as long as the winds will blow...
