

# Sunshine Riptide

Fall Out Boy

I don't even have my own attention  
You say "please don't ever change"  
But you don't like me the way I am  
The sign says don't tap the glass  
But I read it in reverse, ssalg eht pat t'nod syas ngis ehT

The world tried to burn all the mercy out of me  
But you know I wouldn't let it  
It tried to teach me the hard way  
I can't forget it  
Driving down the coast again  
The pills are kicking in  
The pills are kicking in  
She said I love you till I don't

I am just playing house  
No idea what I'm doing now  
There are no atheists in foxholes  
The pressure's getting to me  
It's time to throw in the towel

'Cause I'm stuck in the sunshine riptide  
Dancing all alone in the morning light  
The sunshine riptide  
You came in like a wave when I was feeling alright  
The sunshine

Go 'head, threw up on it  
I fell in love, but I did it for the  
MC midnight na-ma  
Drinkin' messy, me nah drink water  
Make me stumble upon me  
Ain't no slowin' down  
Know I keep it rollin' now  
Smokin' in my fuckin' brain  
Passin' through my fuckin' town  
Feel like I'm bulletproof, bulletproof, baby ooh  
The sun's shining through  
Got the blunt and the juice ooze  
Riding through

The sunshine riptide  
Dancing all alone in the morning light  
The sunshine riptide  
You came back like a wave when I was feeling alright

Sun, sun, sun  
Sun, sun, sun (I'm stuck in the sun)  
Sun, sun, sun  
Sun, sun

You are my truest feeling yet  
I love you so much  
It's just like oxygen  
And it's going to my head  
A public meltdown  
Petulant but irreverent

Take all your possibilities and take away the limits  
Take your ideas and throw away all the gimmicks  
I do the best with what I have  
The pills are kicking in  
The pills are kicking in

'Cause I'm stuck in the sunshine riptide  
Dancing all alone in the morning light  
The sunshine riptide  
You came back like a wave when I was feeling al-  
I was stuck in the sunshine riptide  
Dancing all alone in the morning light  
The sunshine riptide  
You came back like a wave when I was feeling alright

Sun, sun, sun  
Sun, sun, sun (I'm stuck in the sun)  
Sun, sun, sun  
Sun, sun
