

Friends

Fallen Angels

When you need somebody
When you want to cry your fears
When you feel the world is against you
And what you got is only memories
Know that I'll be there for you
And that you can count on me
That your fears are also mine
And that together we'll get by
Cause you know
I'll never let you down
And those stupid fights
Are nothing but far past
So come on my friend
Let's do what has to be done
Take my hand
Let's jump, let's run, let's fly
And never ever come back down
Chorus
We're friends, together
Friends forever
We're friends and that's what we'll be
Until the end of time you'll see
Yes, you'll see
When I'm in trouble
I know you will always be by my side
I know you'll help me get it through
When I need to tell a secret
I know whom to trust
When I need an advice
I know whom to ask
And I thank you, my friend, for all of this
What you've done to make reality out of my fantasies
Now close your eyes and make a wish
Don't give up what you want
Know that I am always here
But if you need me, I'll be there
And if someday, somewhere
You feel alone or scared
If you need somebody
Maybe a friend
You know you can trust me
So come on, give me a call
Forget the world, it doesn't mind
Come with me and you'll be fine
Repeat Chorus
