## **Friends**

**Fallen Angels** 

When you need somebody When you want to cry your fears When you feel the world is against you And what you got is only memories Know that Irll be there for you And that you can count on me That your fears are also mine And that together werll get by Cause you know I'll never let you down And those stupid fights Are nothing but far past So come on my friend Letrs do what has to be done Take my hand Let's jump, let's run, let's fly And never ever come back down Chorus Werre friends, together Friends forever Werre friends and that's what werll be Until the end of time yourll see Yes, yourll see When Irm in trouble I know you will always be by my side I know yourll help me get it through When I need to tell a secret I know whom to trust When I need an advice I know whom to ask And I thank you, my friend, for all of this What yourve done to make reality out of my fantasies Now close your eyes and make a wish Donrt give up what you want Know that I am always here But if you need me, Irll be there And if someday, somewhere You feel alone or scared If you need somebody Maybe a friend You know you can trust me So come on, give me a call Forget the world, it doesn't mind Come with me and yourll be fine Repeat Chorus
