

# Chemical Prisoner

Falling in Reverse

I walk a fine line between coping and insanity  
The white pills right now would be the wrong time  
I have a hard time between flying and sobriety  
The wrong thrill, strong will to keep myself alive  
Watch this rip apart my family  
Fuck that, I'd rather die with honor  
But when the tide is running through me  
I can feel no pain  
It's not worth the price I pay

It's so hard to be together  
And I try, and I try  
But it won't get better  
Forever!  
Days go, days go by  
I won't die, I won't die 'cause  
I must, I must try  
Forever!

I missed a phone call from a friend I knew the other day  
It's strange, it changed my life forever  
A couple days go by, I found out that he passed away  
The right drug, the wrong time, he'll be remembered  
There's two wolves battling us all right now  
One's good, the other one's evil  
If you're wondering which wolf inside will succeed  
Simple, it's the one that you feed

It's so hard to be together  
And I try, and I try  
But it won't get better  
Forever!  
Days go, days go by  
I won't die, I won't die 'cause  
I must, I must try  
Forever!

It's so hard to be together  
And it won't get better  
Days go, days go by  
But I must, I must try  
Forever!

It's so hard to be together  
And I try, and I try  
But it won't get better  
Forever!  
Days go, days go by  
I won't die, I won't die 'cause  
I must, I must try  
Forever!
