

# Don't Mess with Ouija Boards

Falling in Reverse

From the depths of Hell  
So far I fell  
A deal made with the devil  
After all the dust had settled

There's an hourglass of time  
Counting down all of my lies  
And with every grain of sand  
Time is slipping through my hands

Oh! I sold my soul to rock n roll  
I let my demons take control  
Redemption seems so far away  
This microphone is my escape

Don't mess with Ouija Boards  
Cause now my spirits gone

I'm bound by fear of being trapped  
I'm falling faster, fade to black  
Something's standing in my way  
Hoping for better days

I'm always searching  
For serenity (Better days)  
And I'm always standing  
At the edge of reality  
Oh!

I spill my heart out on the stage  
The only way I feel okay  
And right before that curtain calls  
I've just got one more thing to say

Don't mess with Ouija Boards  
Cause now my spirits gone

I'm always searching  
For serenity (Better days)  
And I'm always standing  
At the edge of reality  
Oh!

From the depths of Hell  
So far I fell  
A deal made with the devil  
After all the dust had settled

Look into my eyes  
You will see the light  
It burns to bright  
This way we'll never die  
I speak the truth  
Immortalized by you  
No other way  
Until my final day

Oh, I feel the hate  
Boiling up inside  
And it's too late  
Nowhere to run and hide!

Don't mess with Ouija Boards  
Don't mess with Ouija Boards

I'm bound by fear of being trapped  
I'm falling faster, better days

I'm always searching  
For serenity (better days)  
And I'm always standing  
At the edge of reality, oh (Better days)

I'm always searching  
For serenity (better days)  
And I'm always standing  
At the edge of reality, oh
