

# Keep Holding On

Falling in Reverse

I thought I had myself all figured out  
But I spent my whole life holding myself down  
And it seems to be that sort of thing I keep doing constantly  
Addicted to the pain I cause myself  
My head is floating somewhere in the clouds  
While I'm paid to entertain a lovely crowd  
They sing my songs and feel my pain  
Cause pain is what creates my fame  
A vicious cycle some day I'll get out

I can't believe I'm standing here at all  
I can't believe I made it this far  
On my way with a smile on my face  
See the top and I'm not falling off  
And all I need is a microphone, I'll sing  
About the things that have been hurting me  
It's safe to say, all the kids, I relate  
To their lives so just keep holding on

It's hard enough try walking in my shoes,  
To be picked on by my peers who much abuse  
And I'm tired of not fitting in true friends is my final wish  
Just let me be myself and make it through.  
I have tried so hard to be a better soul  
I have worked so hard at making myself whole  
And through it all my better years are still ahead my mind is clear  
Just trust me when I say I'm in control

I can't believe I'm standing here at all  
I can't believe I made it this far  
On my way with a smile on my face  
See the top and I'm not falling off  
And all I need is a microphone, I'll sing  
About the things that have been hurting me  
It's safe to say, all the kids, I relate  
To their lives so just keep holding on

I believe I'm just like you  
I believe I'll make it through  
It's hard to see at times like this  
But I'm not giving in, but I'm not giving in

I believe I'm just like you  
I believe I'll make it through  
It's hard to see at times like this  
But I'm not giving in, but I'm not giving in

And all I need is a microphone  
I'll sing about the things that have been hurting me  
It's safe to say, all the kids, I relate  
To their lives so just keep holding on

I can't believe I'm standing here at all  
I can't believe I made it this far  
On my way with a smile on my face  
See the top and I'm not falling off  
And all I need is a microphone, I'll sing

About the things that have been hurting me  
It's safe to say, all the kids, I relate  
To their lives so just keep holding on
