

Sexy Drug

Falling in Reverse

Sexy girl, I just fell in love
You should try it, it's a hell of a drug
Like O.M.G., you make me come
Come, com-plete

I'm looking for reasons
I'm begging and pleading
I'm dreaming of calling you mine
You give me ss-stutter and stuff
I'm fumbling over my lines
Without you girl, I'm not alright
I'm not okay, yeah

No, don't give up on me
Wait, it's not what it seems
We can stop this tragedy
It's back to the start
And we're falling apart

Sexy girl, come and lie with me
Frustrated and it's actually
Like O.M.G., you make me come
Come, com-plete

I'm just being honest
I'm creeping and crawling
I'm kissing the top of your head
We're rocking and rolling
We're touching and moaning
Then making a mess from your bed
Can someone help, she shot me dead
I can't be saved, yeah

No, don't give up on me
Wait, it's not what it seems
We can stop this tragedy

So God, if you're real, I need your help!
Girl has stolen my heart with a broken halo
And I can't deny she's so damn fine!
Give me some advice

Sexy girl, I just fell in love
You should try it, it's a hell of a drug
Like O.M.G., you make me come
Come, com-plete

No, don't give up on me
Wait, it's not what it seems
We can stop this tragedy

No, don't give up on me
Wait, it's not what it seems
We can stop this tragedy
It's back to the start

We're falling apart

And it's back to the start
And we're falling apart
Shot straight through the heart
