

In Echoes Forever

Falling Up

We're opening parallax
And running down hallways
Strange time it never stops it never stops, no

So we go up in our houses and light up the runways
This earth can never stop, we never stop, we never stop

So you want deliverance that fourteen years couldn't bring
Or you want to bury all the evidence so far down
Or your dreams are always coming true
Either way you still find you take a life, for a life, for a li
fe

Now I am rising from sky to the ceiling
You know I'll never stop, I'll never stop, no

Nine more machines, I've got nights I'll be stealing
Watch out, I never stop, I never stop, I never stop

So you want deliverance that fourteen years couldn't bring
Or you want to bury all the evidence so far down
Or your dreams are always coming true
Either way you still find you take a life, for a life, for a li
fe
For a life, for a life...
