

# The Valley

Fallstar

Until my hollow bones are filled  
I toss and turn at the mercy of the wind  
Can you heal my soul?  
Can you fix my bones?  
I feel my outsides waste away  
Can that spark inside be fanned into flame?  
Can you heal my soul?  
Can you find me air?

This is what, what it must mean to feel alive  
The light has reached my eyes in the valley  
Here it burns, but I don't burn away  
My God if you have found me, let me see your face

It's not safe, but it's so good  
Hey oh, turn me inside out 'cause I'm just a shell of a man  
And maybe I still wonder  
And maybe I still wonder how  
I got this shadow that keeps pulling on me every single step that I take  
It makes me prone to wander  
So you can pull him underground

Where you lay, where you entered the gates for my sake  
How ugly was your face in that moment?  
But how beautiful you are to me always  
You won't relent until you have it all  
This is love that knows no ends  
You have given your life to me and my friends

You won't hear his voice in the streets  
A bruised reed he will not break

It's not safe, but it's so good  
It's not safe, but it's so good  
It's not safe, but it's all good

Hey oh, turn me inside out 'cause I'm just a shell of a man  
And maybe I still wonder  
And maybe I still wonder how  
I got this shadow that keeps pulling on me every single step that I take  
It makes me prone to wander  
So you can pull him underground

With each passing wind the leaves twist and turn  
Like forgotten souls in an unmarked world  
Once was I lost, once was I found  
Until the days mark my end I will love you  
Until the King reveals his glorious thread  
To a people lost in the wind, twisting and turning again

Hey oh, turn me inside out 'cause I'm just a shell of a man  
And maybe I still wonder  
And maybe I still wonder how  
I got this shadow that keeps pulling on me every single step that I take  
It makes me prone to wander  
So you can pull him underground  
Hey oh, turn me inside out 'cause I'm just a shell of a man

And maybe I still wonder  
And maybe I still wonder how  
I got this shadow that keeps pulling on me every single step that I take  
It makes me prone to wander  
So you can pull him underground
