

# Levitation

Fallujah

Drift out of sight  
Out of my mind  
No hope  
We need more time  
I need more time

Scathing, breathing  
For too long alone  
Dreaming deeply  
Far from home

Will you levitate with me  
Face to face  
Our nerves lost  
I fear the nights end

Nerves lost  
Severed from limbs  
Fearing daylight  
Fearing the nights end  
Consume me  
Embrace me

Light breaks  
White with fear  
Pull me up to meet my end  
Here suspended in air, entwined  
Just you and I tonight  
Wither away with me tonight  
Levitate with me tonight

Scathing, breathing  
For too long alone  
Dreaming deeply far from hope

Will you, levitate with me  
Nerves lost  
Severed from limbs  
Fearing daylight  
Fearing the nights end  
Consume me  
Light breaks  
White with fear  
Pull me up from death  
Pull me up to meet my end

Here suspended in air, entwined  
Scathing light
