

## Back And Forth

Fallulah

I take the road that I know so well  
It's a lonely ride  
I'm not free until I hear the bell, holding me tight  
tight tight  
I keep on whining 'bout the same thing  
And I will keep on till it's changing  
So I'm a prisoner to waiting

Back and forth, little money in hand  
It's lonely ride  
Back and forth in a middle class van  
It's a lonely ride  
What they wish is my command  
It's a lonely ride

Everything I eat has been packed ffor weeks  
I can't taste no more  
I look so malnourished, like I have a disease  
Scrubbing down the floor  
I keep my promise, chores, I do them  
I hope I fall so I can sue them  
And never come back here again

Back and forth, little money in hand  
It's lonely ride  
Back and forth in a middle class van  
It's a lonely ride  
What they wish is my command  
It's a lonely ride

You better make it fast, you better run run  
And some day you will realize it's all you've ever done

Back and forth, little money in hand  
It's lonely ride  
Back and forth in a middle class van  
It's a lonely ride  
What they wish is my command  
It's a lonely ride
