## **Only Human**

**Fallulah** 

Here is the love, now it's not there

Never enough, why must they stare?

Here is the love, at least for a day

Runs out like food, when you can't pay

I'm looking the part, but I'm lacking the heart

Is there a reason that I shouldn't tell you right from the start?

Don't come near me I am only human

Here is the love, don't point it at me
Making me feel the things I should be
Here is the love
It's here in the crowd
(crowd you're loud)
getting too close
I need to get out

Don't come near me I am only human Don't you know I'm only human Only Human
