

# Out Of It

Fallulah

I'll never be the bravest of us  
Crossing my fingers whenever I cross  
I wish I could love without having to fear  
Baby's fingers gotta burn baby came too near  
You'll never know all the trouble I've got  
Still haven't slept and it's seven o'clock  
Everything I have I can lose it in this fight  
Somebody gotta tell me that I'm gonna be alright

Oh it's crazy  
It's crazy I've been here  
I'm inside my head  
How do I get out of it?  
Oh it's crazy  
It's crazy I've been here  
I'm inside my head  
How do I get out of it?

And then he said honey  
And then she said honey  
And then he said honey  
You're on your own  
You're on your ow-ow-ow-own

Searching for sunlight  
A winther inside  
Thinking in circles I cannot abide  
Baby make me want for there's no inside of me  
All is flowing in my eyes turn into a sea.  
I'll never know what I'm capable of  
If i don't go where I'm scared to be lost  
Hope I find my way when I'm going through the night  
Somebody gotta tell me that I'm gonna be alright

Oh it's crazy  
It's crazy I've been here  
I'm inside my head  
How do I get out of it?  
Oh it's crazy  
It's crazy I've been here  
I'm inside my head  
How do I get out of it?

Oh it's crazy  
It's crazy I've been here  
I'm inside my head  
How do I get out of it?  
Oh it's crazy  
It's crazy I've been here  
I'm inside my head  
How do I get out of it?

And then he said honey  
And then she said honey  
And then he said honey  
You're on your own  
You're on your own-own-own-own
