

## Feel Good Track Of Rosemead

Family of the Year

I thought I was a fortunate son but I was wrong  
I gotta keep on keepin on  
I wasn't born a millionaire to drink till my all friends are gone  
But I just wanna party all the time (And I just wanna get stuff done)  
And I just wanna pleasure myself (And you just wanna have some fun)

And now that all of the black bags are thrown out  
There's a man collecting cans in front of our house

I used to separate myself from everyone I'd meet  
And that was me out on the street  
And I just wanna sleep in all the time (And I just wanna wake you up)  
I just wanna feel bad for myself (And I just want you to stay tough)

And now the morning so quickly comes  
And I don't feel like myself around anyone

You take the cat from his cradle  
And you were born with that spoon  
To think it blue boy  
Tell it to the man in the moon

I thought that if I needed it  
That I could use my name  
Fuck around out here  
Wait for the ship to appear

But I just wanna party all the time (And I just wanna get stuff done)  
And I just wanna pleasure myself (And you just wanna have some fun)  
And I just wanna sleep in all day (And I just wanna wake you up)  
I don't wanna get anything done (I just wanna ship you, I just wanna shake you)
