

Die For You

Fancy

Walking down the avenue
A beautiful strange
Creature of the night
Are you man or woman
Who kills my destiny, my love

I want you treat me right
I mend you mercy have out lost the fight
I mend you feat have compassion for me
Oh baby what's it gonna be

You know you make me wanna die for you
Oh I will lie for you
It doesn't matter your shadow forever
The balance side of me
You know you make me wanna die for you
Oh I will lie for you
And all my living is giving, believing
Than I'll be never free

Another shadow of doubt
You'll break my heart
You'll crash me
You'll a burning fire
The end of my travel
What happened
To freedom of joy

I want you treat me right
I mend you mercy have out lost the fight
I mend you feat have compassion for me
Oh baby what's it gonna be

You know you make me wanna die for you
Oh I will lie for you
It doesn't matter your shadow forever
The balance side of me
You know you make me wanna die for you
Oh I will lie for you
And all my living is giving, believing
Than I'll be never free

Tango, tango, tango, tango
Are you man or woman

You know you make me wanna die for you
Oh I will lie for you
It doesn't matter your shadow forever
The balance side of me
You know you make me wanna die for you
Oh I will lie for you
And all my living is giving, believing
Than I'll be never free
Who kills
