

No Tears

Fancy

In a far away land bright lights are going down
Reachin' out for a hand
Cold hearts walking around.
With a gun at my side
I'm like a sacrifice
Now I feel like I'm jailed
Stop the crying
Have I failed ?
No tears
No children filled with fear
Life bringing war so near
No tears
No children fear
- like a story - like hand in hand
- pain and glory - please understand.
Running wild in war
Dark nights go on and on
Children wait by the door
This fighting feels so wrong
Are we slipping away
Remembering yesterday ?
Gotta live in our world
Take away fear
Have no tears.
No tears
No children filled with fear
Life bringing war so near
No tears
No children fear
- like a story - like hand in hand
- pain and glory - please understand.
Running wild running wild in war
Dark nights go on and on
Children wait by the door
This fighting feels so wrong
Are we slipping away
Remembering yesterday ?
Gotta live in our world
Take away fear
Have no tears.
No tears
No children filled with fear
Life bringing war so near
No tears
No children fear
- like a story - like hand in hand
- pain and glory - please understand.
