

# No Tears

Fancy

In a far away land bright lights are going down  
Reachin' out for a hand  
Cold hearts walking around.  
With a gun at my side  
I'm like a sacrifice  
Now I feel like I'm jailed  
Stop the crying  
Have I failed ?  
No tears  
No children filled with fear  
Life bringing war so near  
No tears  
No children fear  
- like a story - like hand in hand  
- pain and glory - please understand.  
Running wild in war  
Dark nights go on and on  
Children wait by the door  
This fighting feels so wrong  
Are we slipping away  
Remembering yesterday ?  
Gotta live in our world  
Take away fear  
Have no tears.  
No tears  
No children filled with fear  
Life bringing war so near  
No tears  
No children fear  
- like a story - like hand in hand  
- pain and glory - please understand.  
Running wild running wild in war  
Dark nights go on and on  
Children wait by the door  
This fighting feels so wrong  
Are we slipping away  
Remembering yesterday ?  
Gotta live in our world  
Take away fear  
Have no tears.  
No tears  
No children filled with fear  
Life bringing war so near  
No tears  
No children fear  
- like a story - like hand in hand  
- pain and glory - please understand.
