

## I've Got The Disease

Fang

Gonna tell you about the wretched impulse  
I want to come like a nuclear missile  
I want that pooch licking on my cock  
My geyser will blow steam off  
I've got the disease  
It always creeps into my dreams  
I become a dog fucking sex machine  
Bestiality is what I like  
Fuck your cat stab it with my knife  
I rip your cows horned head off  
Fuck his brain with my chainsaw  
Take the sheep put their legs in my boots  
Put my blue weiner up the poop chute
